SPRING SCHEDULE

Pre-PTA meeting

Seminars

- February:** Summer Camp Exploration
Peabody parents will meet and discuss their experiences with various summer camp opportunities in an open forum setting in the library. The summer camp sign up has already begun and this is a great way to gain some insight into the many different camp and class offerings for your student(s). Everyone is welcome to participate and share their thoughts.
- March:** State Testing Workshop
Mr. Vroegh will present an overview of the state testing process and how it is implemented. Included in his presentation is an explanation of the test scores and how they are used to evaluate the school. This is especially both reassuring and useful for parents whose students have never taken part in the testing. It is also a wonderful refresher opportunity for parents with older students.
- April:** Yoga with your kids
Erika Lam, yoga instructor, will present a workshop demonstrating yoga poses you can do with your kids. Erika is a Peabody mother of 2 and also leads the afterschool yoga classes. This one-hour workshop will provide parents of all young school children with another option for relaxation techniques. This may be especially useful for our older students as they prepare to start the state testing process later in the month.
